VERBES ANGLAIS À PARTICULE

- (a) *vi* = verbe intransitif. ex: **blow off** dans 'his hat blew off'.
- (b) *vt sep* = verbe transitif séparable. ex: **blow off** dans 'the wind blew off his hat' ou 'the wind blew his hat off'. Le complément d'objet du verbe peut se mettre soit après la particule, soit entre les deux éléments du verbe en les séparant. Cette dernière structure est d'ailleurs obligatoire lorsque le complément d'objet est un pronom: 'the wind blew it off'.
- (c) *vt fus* = verbe transitif fusionné. ex: **admit to** dans 'he admitted to the theft'. Le complément d'objet ne peut jamais s'intercaler entre les deux éléments du verbe, même lorsqu'il s'agit d'un pronom: 'he admitted to it'.
- (d) pour beaucoup de verbes qui indiquent un mouvement ou une direction, les verbes à particule correspondants n'ont pas été dissociés de l'article principal, car ils peuvent être déduits des illustrations fournies. Ainsi, à partir de **crawl 2 vi (gén) ramper; ... to ~ in/out etc entrer/sortir etc en rampant ...** vous pouvez construire: 'to crawl across' (traverser en rampant), 'to crawl down' (descendre en rampant) etc.

Verbes forts anglais

Le prétérit et le participe passé des verbes forts anglais sont mentionnés directement après le mot souche.

ENGLISH PHRASAL VERBS

- (a) *vi* = verb intransitive, e.g. **blow off** in 'his hat blew off'.
- (b) *vt sep* = verb transitive separable, e.g. **blow off** in 'the wind blew off his hat'. The object of the verb may either come after the second part of the phrasal verb, as in this example, or between the two parts ('the wind blew it off').
- (c) *vt fus* = verb transitive fused, e.g. **admit to** in 'he admitted to the theft', where the object of the phrasal verb never comes between the two parts (always 'he admitted to it', never 'he admitted it to').
- (d) Note that for many verbs which involve movement and direction e.g. 'crawl', the related phrasal verbs have not been taken out of the main verb entry, as they may be constructed on the basis of the samples shown. Thus at **crawl 2 vi (gén) ramper; ... to ~ in/out etc entrer/sortir etc en rampant ...** you can form from that 'to crawl across' (traverser en rampant), 'to crawl down' (descendre en rampant) and so on.

English Strong Verbs

The forms of the English strong verbs are indicated immediately after the headword.

Collins-Robert French Dictionary, one of a series of new and original foreign language dictionaries for use at college, school and university level, was immediately recognized as setting new standards in bilingual dictionaries, and was received with acclaim by students, teachers and critics alike.

'There is an ample supply of up-to-date phrases illustrating the whole range of contemporary discourse and one cannot but admire the elegant economy with which tangles of meaning have been elucidated.' Professor John Weightman in *The Observer*.

'It is hard to know which to praise most: the deep and thorough understanding of both languages, the masterly skill in presenting the material or the efficiency in offering so much in this compact volume.' *Times Educational Supplement*.

French Structures: A Manual for Advanced Students presents a unique survey of modern French and is an invaluable complement to the dictionary. The author, Dr. Eric Astington, has drawn on thirty years of classroom experience to produce this guide to grammar, syntax and sentence structure.

- Over 250 sentence patterns and problem areas of grammatical structure are covered.
- Each point is abundantly illustrated by real-life examples of French usage gathered from radio and television, the newspapers, and modern fiction.
- A thoroughly reliable guide for sixth-formers, teachers and undergraduates alike.

'The list of sentence-building devices is one I intend to put onto the desks of my advanced pupils as soon as possible . . . If your medium of teaching is English, put it on the sixth form reference shelf. If your medium is French, put it in the departmental staff library.'
