LES MARQUES DÉPOSÉES

Les termes qui constituent à notre connaissance une marque déposée ont été désignés comme tels.

La présence ou l'absence de cette désignation ne peut toutefois être considérée comme ayant valeur juridique.

NOTE ON TRADEMARKS

Words which we have reason to believe constitute trademarks have been designated as such. However, neither the presence nor the absence of such designation should be regarded as affecting the legal status of any trademark.

Introduction

Vous désirez apprendre l'anglais ou approfondir des connaissances déjà solides. Vous voulez vous exprimer en anglais, lire ou rédiger des textes anglais ou converser avec des interlocuteurs anglophones. Que vous soyez lycéen, étudiant, touriste, secrétaire, homme ou femme d'affaires, vous venez de choisir le compagnon de travail idéal pour vous exprimer et pour communiquer en anglais, oralement ou par écrit. Résolument pratique et moderne, votre dictionnaire fait une large place au vocabulaire de tous les jours, aux domaines de l'actualité, des affaires, de la bureautique et du tourisme. Comme dans tous nos dictionnaires, nous avons mis l'accent sur la langue contemporaine et sur les expressions idiomatiques.

Mode d'emploi

Vous trouverez ci-dessous quelques explications sur la manière dont les informations sont présentées dans votre dictionnaire. Notre objectif: vous donner un maximum d'informations dans une présentation aussi claire que possible.

Les articles

Voici les différents éléments dont est composé un article type dans votre dictionnaire:

Transcription phonétique

La prononciation de tous les mots figure, entre crochets, immédiatement après l'entrée. Comme la plupart des dictionnaires modernes, nous avons opté pour le système dit "alphabet phonétique international". Vous trouverez ci-dessous, aux pages xii et xiii, une liste complète des caractères utilisés dans ce système.

Données grammaticales

Les mots appartiennent tous à une catégorie grammaticale donnée: substantif, verbe, adjectif, adverbe, pronom, article, conjonction. Les substantifs peuvent être singuliers ou pluriels et, en français, masculins ou féminins. Les verbes peuvent être transitifs, intransitifs, pronominaux (ou réfléchis) ou encore impersonnels. La catégorie grammaticale des mots est indiquée en *italique*, immédiatement après le mot.

Souvent un mot se subdivise en plusieurs catégories grammaticales. Ainsi le français **creux** peut-il être un adjectif ou un nom masculin et l'anglais **early** peut-il être soit un adverbe, soit un adjectif. De même le verbe **fumer** est parfois transitif ("fumer un cigare"), parfois intransitif ("défense de fumer"). Pour vous permettre de trouver plus rapidement le sens que vous cherchez, et pour aérer la présentation, nous avons séparé les différentes catégories grammaticales par un petit triangle blanc ▷.

Subdivisions sémantiques

La plupart des mots ont plus d'un sens; ainsi **bouchon** peut être un objet servant à boucher une bouteille, ou, dans un sens figuré, un embouteillage. D'autres mots se traduisent différemment selon le contexte dans lequel ils sont employés: **couler** se traduira en anglais "to leak" ou "to sink" selon qu'il s'agit d'un stylo ou d'un bateau. Pour vous permettre de choisir la bonne traduction dans tous les contextes, nous avons subdivisé les articles en catégories de sens: chaque catégorie est introduite par une "indication d'emploi" entre parenthèses et en *italique*. Pour les exemples ci-dessus, les articles se présenteront donc comme suit:

bouchon *nm* (en liège) cork; (autre matière) stopper; (fig: embouteillage) hold-up
couler *vi* to flow, run; (fuir: stylo, récipient) to leak; (sombrier: bateau) to sink

De même certains mots changent de sens lorsqu'ils sont employés dans un domaine spécifique, comme par exemple **puce** que nous employons généralement dans son acception de "petit insecte sauteur", mais qui est aussi un terme d'informatique. Pour montrer à l'utilisateur quelle traduction choisir, nous avons donc ajouté, en *italiques* entre parenthèses, et commençant par une majuscule, une indication de domaine, à savoir dans ce cas particulier (*Informatique*), que nous avons abrégé pour gagner de la place en (*Inform*):

puce *nf* flea; (*Inform*) chip

Une liste complète des abréviations dont nous nous sommes servis dans ce dictionnaire figure ci-dessous aux pages x et xi.

Traductions

La plupart des mots français se traduisent par un seul mot anglais, et vice-versa, comme dans les exemples ci-dessus. Parfois cependant, il arrive qu'il n'y ait pas d'équivalent exact dans la langue d'arrivée et nous avons donné un équivalent approximatif, indiqué par le signe ≈. C'est le cas par exemple pour le mot **baccalauréat** dont l'équivalent anglais est "A-levels": il ne s'agit pas d'une traduction à proprement parler puisque nos deux systèmes scolaires sont différents:

baccalauréat *nm* ≈ A-levels *pl*

Parfois, il est même impossible de trouver un équivalent approximatif. C'est le cas par exemple pour les noms de plats régionaux, comme le plat languedocien suivant:

cassoulet *nm* sausage and bean hotpot

L'explication remplace ici une traduction (qui n'existe pas); pour plus de clarté, cette explication, ou glose, est donnée en *italique*.

Souvent aussi, on ne peut traduire isolément un mot, ou une acception particulière d'un mot. La traduction anglaise de **copain**, par exemple, est "mate, pal", cependant **être copain avec** se traduit "to be pally with". Même une expression toute simple comme **doigt de pied** nécessite une traduction séparée, en l'occurrence "toe" (et non "footfinger"). C'est là que votre dictionnaire se révélera particulièrement utile et complet, car il contient un maximum de composés, de phrases et d'expressions idiomatiques.

Registre

En français, vous saurez instinctivement quand dire **j'en ai assez** et quand dire **j'en ai marre** ou **j'en ai ras le bol**. Mais lorsque vous essayez de comprendre quelqu'un qui s'exprime en anglais, ou de vous exprimer vous-même en anglais, il est particulièrement important de savoir ce qui est poli et ce qui l'est moins. Nous avons donc ajouté l'indication (*fam*) aux expressions de langue familière; les expressions particulièrement grossières se voient dotées d'un point d'exclamation supplémentaire (*fam!*) dans la langue de départ comme dans la langue d'arrivée, vous incitant à une prudence accrue. Notez également que dans la partie français-anglais, les traductions qui appartiennent au registre vulgaire sont suivies d'un point d'exclamation entre parenthèses.

Mots-clés

Une importance particulière a été accordée aux mots qui figurent dans le texte sous la mention **mot-clé**. Il s'agit de mots particulièrement complexes ou importants, comme **être** et **faire** ou leurs équivalents anglais **be** et **do**, que nous avons traités d'une manière plus approfondie parce que ce sont des éléments de base de la langue.

Notes culturelles

Les articles séparés du texte principal par une ligne pointillée verticale décrivent certaines caractéristiques culturelles des pays francophones et anglophones. Les médias, l'éducation, la politique et les fêtes figurent parmi les sujets traités. Exemples: **quality press**, **honours degree**, **préfecture** et **fête des rois**.

Consonants

Divers

pour l'anglais: le "r" final se prononce en liaison devant une voyelle
pour l'anglais: précède la syllabe accentuée

Miscellaneous

in English transcription: final "r" can be pronounced before a vowel
in French wordlist: no liaison before aspirate "h"

NB: p, b, t, d, k, g sont suivis d'une aspiration en anglais.
p, b, t, d, k, g are not aspirated in French.

En règle générale, la prononciation est donnée entre crochets après chaque entrée. Toutefois, du côté anglais-français et dans le cas des expressions composées de deux ou plusieurs mots non réunis par un trait d'union et faisant l'objet d'une entrée séparée, la prononciation doit être cherchée sous chacun des mots constitutifs de l'expression en question.

NB: La mise en équivalence de certains sons n'indique qu'une ressemblance approximative.

The pairing of some vowel sounds only indicates approximate equivalence.

In general, we give the pronunciation of each entry in square brackets after the word in question. However, on the English-French side, where the entry is composed of two or more unhyphenated words, each of which is given elsewhere in this dictionary, you will find the pronunciation of each word in its alphabetical position.

ACADÉMIE FRANÇAISE

The Académie française was founded by
 Cardinal Richelieu in 1635, during the reign
 of Louis XIII. It is made up of forty elected
 scholars and writers who are known as "les
 Quarante" or "les Immortels". One of the
 Académie's functions is to keep an eye on the
 development of the French language, and
 its recommendations are frequently the
 subject of lively public debate. It has
 produced several editions of its famous

CANTON

A French canton is the administrative division represented by a councillor in the "Conseil général". It comprises a number of "communes" and is, in turn, a subdivision of an "arrondissement". In Switzerland the cantons are the 23 autonomous political divisions which make up the Swiss confederation.

DOM-TOM, ROM ET COM

There are four "Départements d'outre-mer" or DOMs: Guadeloupe, Martinique, La Réunion and French Guyana. They are run in the same way as metropolitan "départements" and their inhabitants are French citizens. In administrative terms they are also "Régions", and in this regard are also referred to as "ROM" (Régions d'outre-mer). The term "DOM-TOM" is still commonly used, but the term "Territoire d'outre-mer" has been superseded by that of "Collectivité d'outre-mer" (COM). The COMs include French Polynesia, Wallis-and-Futuna, New Caledonia and polar territories. They are independent, but each is supervised by a representative of the French government.

ÉLECTIONS LÉGISLATIVES

Élections législatives are held in France every five years to elect "députés" to the "Assemblée nationale". The President is chosen in the "élection présidentielle", which is also once round every five years. Voting is by direct universal suffrage and is divided into two rounds. The ballots always take place on a Sunday.

LE PREMIER MAI

Le premier mai is a public holiday in France and commemorates the trades union demonstrations in the United States in 1886 when workers demanded the right to an eight-hour working day. Sprigs of lily of the valley are traditionally exchanged. *Le 8 mai* is also a public holiday and commemorates the surrender of the German army to Eisenhower on 7 May, 1945. It is marked by parades of ex-servicemen and ex-servicewomen in most towns. The social upheavals of May and June 1968, with their student demonstrations, workers' strikes and general rioting, are usually referred to as "les événements de mai 68". De Gaulle's Government survived, but reforms in education and a move towards decentralization ensued.

LA MARSEILLAISE

The *Marseillaise* has been France's national anthem since 1879. The words of the "Chant de guerre de l'armée du Rhin", as the song was originally called, were written to an anonymous tune by an army captain called Rouget de Lisle in 1792. Adopted as a marching song by the Marseille battalion, it was finally popularized as the *Marseillaise*.

SERVICE MILITAIRE

Until 1997, French men over the age of 18 who were passed as fit, and who were not in full-time higher education, were required to do ten months' "service militaire". Conscientious objectors were required to do two years' community service. Since 1997, military service has been suspended in France. However, all sixteen-year-olds, both male and female, are required to register for a compulsory one-day training course, the "JAPD" ("journée d'appel de préparation à la défense"), which covers basic information on the principles and organization of defence in France, and also advises on career opportunities in the military and in the voluntary sector. Young people must attend the training day before their eighteenth birthday.
